1. Module Overview

What it does: Manages customer relationship management (leads, opportunities, customer retention), marketing campaign execution, and trade promotion management for FMCG channel spending.

Who uses it:

- Commercial Manager — monitors pipeline, forecasts, and trade spend
- Sales Manager — manages territories, team pipeline, and win/loss analysis
- CRM Officer — maintains leads, opportunities, and customer interactions
- Marketing Manager — creates and tracks marketing campaigns
- Brand Manager — manages TPM budgets and promotional calendars

When to use it:

- When tracking a new business lead
- When managing a sales opportunity through the pipeline
- When planning and executing a marketing campaign
- When processing trade promotion agreements with distributors
- When running customer loyalty points
- When conducting an NPS survey

Modules at a glance:

Feature	Route	Purpose
CRM	<code>/dashboard/crm</code>	Customer relationship management
Marketing	<code>/dashboard/marketing</code>	Campaign and trade promotion management

2. CRM Overview

Route: `/dashboard/crm`

Required permission: `crm.view`

CRM overview — pipeline value, lead count, opportunities by stage, and win rate.

Tabs

Tab	Purpose
Overview	CRM KPI dashboard
Pipeline	Visual sales pipeline (Kanban)
Leads	Lead register
Opportunities	Opportunity register
Activities	Calls, meetings, tasks, emails
Forecast	Revenue forecast by period
Territory	Territory and rep assignment
Stages	Configure pipeline stages
Win/Loss	Win and loss analysis
Loyalty	Customer loyalty programme
NPS	Net Promoter Score tracking
Surveys	Customer surveys

3. Leads Management

Tab: Leads

What it does

Track initial prospects — unqualified contacts or companies showing interest. A Lead is converted to an Opportunity when qualified.

Leads list with source, owner, status, and last activity.

+ New Lead

Code	Company	Contact	Source	Stage	Temp	Score	Expected Rev	Status	Actions
No leads found									

Status, owner, and territory dropdowns on the lead form.

Lead Status Values

Status	Meaning
NEW	Just captured; not yet contacted
CONTACTED	Initial contact made
QUALIFIED	Lead assessed; meets criteria
CONVERTED	Converted to Opportunity
DISQUALIFIED	Not a prospect; closed out

Converting a Lead to Opportunity

Open lead → click **Convert to Opportunity** → system creates Opportunity with lead data pre-filled. Lead status set to CONVERTED.

4. Opportunities Pipeline

Tab: Opportunities (list) · Pipeline (Kanban view)

What it does

Track qualified sales opportunities through the deal pipeline from initial engagement to close.

Pipeline Kanban view — opportunities grouped by stage with deal value.

Opportunities list view with stage, expected close date, and probability.

Creating an Opportunity

Click + New Opportunity:

Field	Required	Notes
Opportunity Name	Yes	Descriptive deal name
Customer / Account	Yes	Link to customer master
Stage	Yes	Current pipeline stage
Expected Close Date	Yes	Target date to close
Deal Value	Yes	Estimated revenue
Probability %	Yes	Win probability
Owner	Yes	Sales rep responsible
Products	No	Products in scope
Next Step	No	What happens next

Opportunity Dropdowns:

Stage, owner, and territory dropdowns.

Pipeline Stage Values

Configured in CRM → Stages tab. Default:

1. Prospecting
2. Qualification
3. Proposal Sent
4. Negotiation

- 5. Verbal Commitment
- 6. Closed Won
- 7. Closed Lost

Forecast Contribution

Each open opportunity contributes to forecast at: Deal Value × Probability %. Weighted pipeline shown in Forecast tab.

5. Activities & Follow-ups

Tab: Activities

What it does

Log all customer interactions — calls made, meetings held, emails sent, tasks assigned.

Activity log — scheduled and completed interactions by type, date, and owner.

Activity types: Call / Email / Meeting / Demo / Proposal / Follow-up / Task

Creating an activity:

1. Activities → **+ New Activity** (or open opportunity/lead → Add Activity)
2. Set type, date/time, owner, notes
3. Link to opportunity or customer
4. Mark as completed when done

Activities not marked complete appear in each rep's daily to-do list.

6. Sales Forecast

Tab: Forecast

Sales forecast — pipeline-weighted revenue by period and rep.

Forecast views:

- Weighted: Sum of (Deal Value × Probability)
- Best Case: Sum of all open deals
- Committed: Only stage ≥ Verbal Commitment

Use the period picker to view monthly/quarterly/annual forecast.

7. Territory Management

Tab: Territory

What it does

Assign customers, leads, and opportunities to geographic territories. Map sales reps to territories.

Territory map and assignment table — rep to territory to customer mappings.

8. Pipeline Stages Configuration

Tab: Stages

What it does

Configure the stages used in the opportunity pipeline. Add, rename, reorder, and set probability defaults per stage.

Pipeline stage configuration — name, order, default probability, and type (open/won/lost).

Admin only — changes affect all reps' pipelines immediately.

9. Win/Loss Analysis

Tab: Win/Loss

What it does

Analyze why deals were won or lost. Track win rate by product, customer segment, competitor, and time period.

Win/loss analysis — reasons, volume, and value of won and lost opportunities.

On closing an opportunity (Won or Lost):

- Select reason (Required for Lost: Price / Competition / Timeline / Budget / Product Fit / Other)
- Enter notes
- For Lost: enter competitor name (optional)

Data aggregates in Win/Loss tab for trend analysis.

10. Customer Loyalty Programme

Tab: Loyalty

What it does

Manage customer loyalty points — earn on purchases, redeem for discounts or rewards.

Loyalty programme — enrolled customers, points balances, and redemption history.

Enrolling a Customer

Click + Enroll:

Field	Required
Customer	Yes
Programme	Yes
Enrollment Date	Yes
Starting Points	No (default 0)

Points earn rate: Configured per programme — e.g. "1 point per KES 100 spent"

Redemption: Customer requests redemption → generates discount on next invoice

11. Net Promoter Score (NPS)

Tab: NPS

What it does

Track customer satisfaction via NPS surveys — measure promoters, passives, and detractors.

NPS dashboard — overall NPS score, trend, and customer distribution.

Logging an NPS Response

Click + Log Response:

Field	Required	Notes
Customer	Yes	
Survey Date	Yes	
Score	Yes	0–10
Verbatim Feedback	No	Customer comment
Channel	No	Email / Phone / In-Person

NPS Categories:

- 0–6: Detractor
- 7–8: Passive
- 9–10: Promoter

NPS Score = % Promoters – % Detractors

12. Surveys

Tab: Surveys

What it does

Create and distribute customer surveys. Track responses and analyze results.

Survey management — active surveys, response rates, and results summary.

13. Marketing Module

Route: /dashboard/marketing

Marketing module — campaign management and trade promotion workspace.

Tabs

Tab	Purpose
Campaigns	Marketing campaign management
TPM	Trade Promotion Management

14. Marketing Campaigns

Tab: Campaigns

What it does

Plan, execute, and measure marketing campaigns — digital, trade, consumer, and PR.

Accessing campaigns: Marketing → Campaigns tab.

Campaigns list with status, channel, budget, and ROI.

Campaign types: Digital / Trade / Consumer / Events / PR / Social Media

Creating a Campaign:

1. Marketing → Campaigns → **+ New Campaign**
2. Set name, type, channel, budget, start/end dates
3. Define target audience
4. Set success metrics (reach, conversions, ROI)
5. Launch and track actuals vs. plan

15. Trade Promotion Management (TPM)

Tab: TPM

What it does

Manage trade promotion spend — promotional agreements with distributors, retailer listing fees, off-invoice discounts, display fees, and co-op advertising.

TPM dashboard — total trade spend, by customer and by promotion type.

TPM activities:

Activity	Description
Off-Invoice Discount	Price reduction applied on invoice
Volume Rebate	Retrospective rebate on target achievement
Display Fee	Payment for in-store display/gondola end
Listing Fee	One-time fee to list a new SKU
Co-op Advertising	Shared advertising cost with retailer
Sampling	Product sampling event costs

TPM workflow:

1. Commercial team negotiates deal with customer
2. TPM agreement created in system with terms
3. Spend tracked against budget as invoices or credit notes raised
4. Monthly accrual posted to Finance
5. Year-end settlement reconciliation

16. Common Mistakes & Troubleshooting

Problem	Cause	Fix
Lead conversion creates duplicate customer	Customer already exists	Search existing customers before converting; link rather than create
Pipeline value inflated	Old won/lost deals still showing as open	Close won/lost opportunities with correct status
NPS score not updating	New responses not yet in current period	Refresh date range filter on NPS dashboard
TPM budget overspent	No budget alert configured	Set TPM budget alert threshold in marketing settings
Campaign ROI shows 0	Revenue not linked to campaign	Tag sales orders with campaign reference
Loyalty points not accruing	Customer not enrolled in active programme	Enroll customer and verify programme is active

17. Related Modules

This Action	Connects To
Lead converted to customer	Sales → Customers master
Opportunity won → order	Sales → Orders
Loyalty redemption	Sales → Discount on invoice
TPM accrual	Finance → Journal (trade spend accrual)
Campaign → sales order	Sales → Order (campaign reference)
NPS low score	CRM → Activity (follow-up task)
