1. Module Overview

What it does: Full human resources management — employee records, attendance tracking, leave administration, shift planning, recruitment, performance management, training, and employee self-service.

Who uses it:

- HR Manager — oversees all HR processes, approves leave and appraisals

- HR Officer — maintains employee records, processes attendance, manages recruitment
- Payroll Officer — syncs attendance and leave data to payroll
- Department Manager — approves leave requests, views team attendance
- Employee — submits leave, views payslips, updates personal details via ESS

When to use it:

- When onboarding a new employee
- When processing monthly leave summaries for payroll
- When running a recruitment campaign
- When scheduling shifts for factory workers
- When conducting annual performance appraisals
- When tracking training certifications

Module overview:

Feature	Route	Purpose
HR Hub	/dashboard/hr	All HR functions

HR module overview — headcount KPIs, attendance today, pending leave, and open vacancies.

2. HR Dashboard

Tab: Overview

KPI cards:

- Total Headcount
- Active Employees
- Present Today (attendance)
- On Leave Today
- Pending Leave Requests
- Open Vacancies
- Upcoming Appraisals

Charts: Department headcount breakdown, attendance trend, leave utilization.

3. Employee Management

Tab: Employees

Required permission: `hr.employees.view`

What it does

Central employee master — personal details, employment information, contract type, department, role, salary grade, and emergency contacts.

Employees list with name, department, job title, employment type, and status.

Creating a New Employee

Click + New Employee:

Section	Fields
Personal	Full Name, Date of Birth, Gender, Nationality, ID Number, Tax PIN (KRA)
Contact	Email, Phone, Emergency Contact Name/Phone
Employment	Department, Job Title, Employment Type, Start Date
Payroll	Salary Grade, Basic Salary, Bank Account, NSSF No, NHIF No
Contract	Contract Type (Permanent/Contract/Casual), Contract End Date

Employee Dropdowns:

Department, job title, employment type, and salary grade dropdowns.

Employee Status Values

Status	Meaning
ACTIVE	Currently employed
ON_PROBATION	Within probation period
ON_LEAVE	Currently on approved leave
SUSPENDED	Suspended pending investigation
TERMINATED	Employment ended

Required Before Payroll Can Process

- KRA PIN entered (required for PAYE calculation)
- NSSF number (for statutory deductions)
- NHIF/SHIF number
- Bank account details (for salary payment)
- Payroll profile linked (in Finance → Payroll)

4. Attendance

Tab: Attendance

What it does

Record and track daily employee attendance — clock-in/out times, late arrivals, early departures, absent records.

Attendance dashboard — today's attendance, absent report, and time analysis.

Recording Attendance

Click + Record Attendance:

Field	Required	Notes
Employee	Yes	Select employee
Date	Yes	Default today
Time In	Yes	Clock-in time
Time Out	No	Clock-out time (can update later)
Status	Yes	Present / Absent / Late / Half Day
Notes	No	Reason for absence or note

Attendance Dropdowns:

Status dropdown and shift selection.

Biometric/RFID Integration

If biometric devices are integrated, attendance is auto-imported daily. Manual records supplement biometric data for exceptions.

Attendance and Payroll Link

At month-end, attendance data feeds payroll:

- Absent days deducted from basic salary
- Late arrivals may trigger deduction (if policy configured)
- Overtime hours (if time-in/out tracked) added to payroll

5. Leave Management

Tab: Leave

What it does

Manage employee leave — annual leave, sick leave, maternity/paternity, compassionate, and unpaid leave. Tracks leave balances, approvals, and calendar.

Leave management — pending approvals, leave calendar, and balance summary.

Submitting Leave (HR on behalf of employee or via ESS)

Click + New Leave:

New Leave Request

Employee: — select —

Leave Type: ANNUAL, SICK, MATERNITY, PATERNITY, UNPAID, COMPASSIONATE, OTHER

Start Date: mm/dd/yyyy

End Date: mm/dd/yyyy

Reason:

Submit Cancel

Leave Types

Type	Annual Entitlement	Paid?
Annual Leave	21 working days	Yes
Sick Leave	7 days (30 days with certificate)	Yes
Maternity Leave	90 days	Yes
Paternity Leave	14 days	Yes
Compassionate Leave	3 days	Yes
Study Leave	As approved	Partial
Unpaid Leave	As approved	No

Leave Approval Workflow

1. Employee submits (or HR submits on behalf)
2. Line manager notified — approves or rejects
3. HR receives final notification
4. Approved leave deducted from balance
5. Leave calendar updated — visible to team

Leave Balance

Each employee has a leave balance per type. Balance updated at year-end (unused annual leave carried forward per policy). HR can manually adjust balances.

6. Payroll (HR View)

Tab: Payroll

HR payroll view — payroll run status and employee payslip access.

HR view shows payroll periods and employee payslips. Processing done in Finance → Payroll. For full payroll documentation see Finance & Payroll Manual.

7. Shifts & Scheduling

Tab: Shifts

What it does

Configure shift templates and assign employees to shifts. Used for factory workers, security, and shift-based operations.

Shift management — shift templates and employee schedule.

Creating a Shift Template

Click + New Shift Template:

Field	Required	Notes
Shift Name	Yes	e.g. "Morning Shift A"
Start Time	Yes	e.g. 06:00
End Time	Yes	e.g. 14:00
Break Duration	No	Minutes (e.g. 30)
Night Shift	No	Toggle if crosses midnight
Overtime Threshold	No	Hours before OT applies
Days Active	Yes	Mon–Sun checkboxes

Assigning Employees to Shifts

Click + Assign Shift:

Field	Required
Employee	Yes
Shift Template	Yes
Effective From	Yes
Effective To	No (blank = indefinite)

Shift Handover

Shop floor shift handover managed in Manufacturing → Shop Floor → Handover tab (linked to production context).

8. Recruitment

Tab: Recruitment

What it does

Manage the full recruitment lifecycle — job postings, applications, shortlisting, interviews, offers, and onboarding.

Recruitment pipeline — open vacancies, candidates by stage, and hiring metrics.

Recruitment stages: JOB_POSTED → APPLICATIONS_OPEN → SHORTLISTING → INTERVIEWS → OFFER → ACCEPTED → ONBOARDED

Creating a job posting:

1. Recruitment → + New Vacancy
2. Set job title, department, number of positions, salary range
3. Write job description
4. Set application deadline
5. Publish (internal / external)
6. Applications captured; move through pipeline stages

9. Employee Self-Service (ESS)

Tab: ESS

What it does

Employee portal — employees can view payslips, submit leave, update personal details, view attendance, and access company documents.

ESS configuration — manage which self-service features are enabled and employee portal access.

ESS features available to employees:

- View and download payslips
- Submit leave requests
- View leave balances and history
- View attendance record
- Update personal details (address, emergency contact, bank details)
- View employment letter and contract
- Access company policy documents

ESS access: Employees log in via the same ERP login URL with their employee credentials (separate from admin accounts).

10. Appraisals & Performance

Tab: Appraisals

What it does

Manage employee performance reviews — annual appraisals, KPI setting, and competency assessment.

Appraisals — upcoming reviews, completed reviews, and performance scores.

Appraisal workflow:

1. HR creates appraisal cycle (e.g. Annual 2026)
2. Employees receive self-assessment form
3. Manager completes manager assessment
4. HR reviews and calibrates scores
5. Employee acknowledges results
6. Salary review linked to performance score

11. Training & Development

Tab: Training

What it does

Track employee training — planned, in progress, and completed training programs. Certification tracking.

Training management — training calendar, individual training records, and certification expiry.

Training record fields:

- Employee
- Training Name
- Category (Technical / Safety / Compliance / Soft Skills)
- Provider
- Start/End Date
- Certification (if applicable)
- Certification Expiry Date
- Status (Planned / Completed / Failed)
- Cost

Certification alerts: System flags certificates expiring within 60 days.

12. Timesheets

Tab: Timesheets

What it does

Project-based or task-based time tracking for professional/salaried staff.

Timesheets — weekly time entries by employee, project, and task.

Timesheets feed into project costing and can trigger overtime calculations in payroll.

13. HR Expenses

Tab: Expenses (HR view)

Expense claims submitted by employees — view and approval status.

Full expense management in Finance → Expenses. HR view shows claims pending manager approval.

14. Common Mistakes & Troubleshooting

Problem	Cause	Fix
Payroll can't find employee	Employee not linked to payroll profile	Create payroll profile in Finance → Payroll → Profiles
Leave days not reducing balance	Leave type not configured with balance tracking	Check leave type settings: <code>deduct_from_balance = true</code>
Attendance not syncing to payroll	Payroll period closed before attendance finalized	Reopen period or adjust manually in payroll
Employee can't access ESS	ESS not enabled for their user account	Enable ESS in HR → ESS → manage user access
Appraisal cycle not appearing	Cycle date range doesn't include today	Check appraisal cycle start/end dates
Recruitment stage stuck	No interviewer assigned	Assign interviewer before moving to Interview stage
Shift not appearing in attendance	Shift not assigned to employee for this period	Assign shift in Shifts → Assign Shift with correct date range

15. Related Modules

This Action	Connects To
Employee attendance finalized	Finance → Payroll (hours and deductions)
Leave approved	HR calendar + Payroll (leave deduction)
New employee onboarded	Finance → Payroll (profile creation)
Training certification	Compliance → Regulatory Certs (if operator certification required)
Timesheet approved	Finance → Project Costing
Expense approved	Finance → Expenses → Reimbursement
